PROFILE SUMMARY

Front-end developer with hands-on experience in **React, JavaScript, HTML, CSS, Tailwind, Next.js, and TypeScript**. Built and deployed multiple projects including interactive dashboards and full-featured web apps on **Netlify and Vercel**. Strong in API integration, responsive UI design, component-based architecture, and version control (Git/GitHub). Strong in **API integration, responsive UI design, and version control (Git/GitHub)** with ongoing practice in **DSA using Python** to sharpen problem-solving skills.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript, TypeScript
- **Frameworks/Libraries:** React (Hooks, Context API), Next.js (App Router), Tailwind CSS
- **Tools & Platforms:** Git, GitHub, Notion, Slack, Netlify
- **Other:** API Integration, Responsive Design, DOM Manipulation, Agile Collaboration

PROJECTS

SavorySpace (Recipe Manager)

[Repo Link](#)

- **Tech stack:** React, JSX, HTML, CSS, API, Netlify
- Built a React app with multi-page navigation and user authentication using SheetDB API.
- Implemented CRUD operations, recipe favorites, calorie tracking, and expandable recipe details.
- Designed responsive UI with CSS Modules and Toast notifications for real-time feedback.

E-commerce Storefront

[Repo Link](#)

- Built a responsive e-commerce storefront using Next.js (App Router) and TypeScript with reusable, component-based architecture.
- Managed global state (auth, cart, location) using React Context across pages.
- Created modular services and serverless APIs for geocoding and distance-based product filtering.
- Developed dynamic product and category pages with optimized performance using strict TypeScript models.

EXPERIENCE

Frontend Developer - Codesoar Technologies

Jan 2024 – Present

- Developing responsive web applications using React.js and modern JavaScript.
- Integrating REST APIs and managing application state efficiently.
- Contributing to clean code practices and Git-based version control.

Front-End Developer (Training & Projects) - NavGurukul

Sep 2024 – Present

- Completed 60+ hr/week immersive training in HTML, CSS, JavaScript, React, Tailwind, and Python.
- Built responsive apps including a Recipe Manager (React, APIs) and Data Dashboard (JS, Chart.js).
- Conducted daily DSA practice in Python to strengthen problem-solving logic and coding efficiency.
- Participated in peer-led Agile collaboration with code reviews and GitHub version control.

EDUCATION

Sep 2024 – Present **Bachelor of Computer Applications**
Eternal University, Baru Sahib

ACHIEVEMENTS & EXTRAS

- Recipient of full BCA scholarship.
- Actively participated in hackathons with multiple projects deployed on Netlify.
- Strong teamwork, communication, and problem-solving skills demonstrated in collaborative projects.
